BELÉN VINSENNAU

Game Developer | Gameplay · UI

Buenos Aires, Argentina · belu.vinsennau@gmail.com

linkedin.com/in/belen-vinsennau · https://beluuuula.itch.io/ · github.com/beluvinse

PROFESSIONAL SUMMARY

Game developer with nearly 3 years of professional experience shipping features on four commercial titles in Unity (C#) and Unreal Engine / UEFN (Verse). Specialized in gameplay systems, multiplayer gameplay, UI implementation, and live-service features (player progression, rankings, daily rewards), with a strong focus on maintainable architecture through design patterns and performance optimization. Complementary hands-on QA testing experience. Comfortable collaborating in English within distributed teams.

TECHNICAL SKILLS

Languages: C#, Verse

Engines: Unity (2D & 3D), Unreal Engine, UEFN

Multiplayer & Live Features: multiplayer gameplay systems, player progression, daily rewards, rankings and leaderboards, save systems

Gameplay: gameplay mechanics, player progression & persistence, custom physics tuning, game feel & animation polish (Spine, Naninovel)

UI/UX: UI implementation and customization, player-facing interactions, transitions and visual feedback

Architecture & Quality: design patterns, refactoring, profiling & optimization, debugging complex systems

QA & Testing: functional and exploratory testing, bug reproduction and documentation, cross-platform/input testing

Tools: Git/GitHub, Jira, Bugzilla, Maya, Photoshop, Spine, Slack

PROFESSIONAL EXPERIENCE

Game Developer (Unity & Unreal) — Trick Studios | 2023 – 2026

Shipped features across four commercial projects spanning multiplayer, live-service, and narrative-driven games.

Super Jump · Unreal Engine, UEFN, Verse

- Developed core gameplay mechanics and multiplayer gameplay systems for a live UEFN title.
- Designed and implemented player progression: daily rewards, ranking and leaderboard functionality, and progress-saving systems.
- Implemented and customized gameplay UI systems.

SugarTown · Unity, C#

- Diagnosed and fixed gameplay and UI bugs, improving stability and user experience on a live product.
- Integrated custom UI packages into existing systems and assisted in implementing gameplay features.

Godless Realms · Unity, C#, Naninovel, Spine

- Built narrative chapters and cutscenes using Naninovel.
- Adjusted and optimized combat logic and character abilities.
- Implemented and modified 2D skeletal animations using Spine.

Cribbage · Unity, C#

- Implemented and polished UI systems and player-facing interactions.
- Improved game feel through animations, transitions, and visual feedback.
- Performed bug fixing throughout the development cycle.

QA Tester — Absolutely Not Games | Aug 2026 | Temporary Contract | Remote

Performed QA testing for Dino-Might, a multiplayer game, focusing on multiplayer functionality, input methods, game settings, and gameplay/UX behavior.

- Tested online, local, and hybrid multiplayer across host and client roles using keyboard and controller input.
- Conducted exploratory and functional testing across gameplay, UI, and different game configurations.
- Identified and documented reproducible bugs in Bugzilla with clear reproduction steps, expected behavior, and actual behavior.
- Provided gameplay and UX feedback and suggestions for improvement.

PERSONAL PROJECTS

Ping Pong | Unity · C# · DOTween

beluuuula.itch.io/ping-pong — A colorful arcade table tennis game featuring mouse-controlled gameplay, an AI opponent and custom ball physics. Built as a technical challenge and later expanded with a focus on UI, animations and visual effects.

Playtest Tracker | C# · .NET 8 · ASP.NET Core · PostgreSQL · React · TypeScript · Docker

github.com/beluvinse/playtest-tracker-web — A full-stack bug tracking platform for game playtests, built as a personal project to explore backend development. Features user authentication, organization-based project management and automated testing.

EDUCATION

Escuela Da Vinci — Tertiary Degree: Design & Programming of Virtual Simulators (2021 – 2025)

LANGUAGES

- Spanish: native
- English: B2 — professional working proficiency
